indivisible, with liberty and justice
for all.*

MUNICIPAL AFFAIRS

67th Annual Report

FISCAL YEAR
JULY 1, 1958 TO JUNE 30, 1959

RUTLAND, VERMONT

Printed by
NOVAK PRINTING COMPANY, INC.

Foreword

Each year a concise yet comprehensive accounting of the City's business and activities is published for you—the stockholders in the City of Rutland. This report is for your use. Give it the same careful consideration and study you would give to your own business.

Original approved bills supporting expenditures are on file in the City Clerk's Office and cancelled checks on file in the office of the City Treasurer. Any interested citizen is welcome at any time to call at the City Hall and examine vouchers and cancelled checks.

The youth of Rutland in particular are urged to read this book and to study city government, for on the shoulders of today's youth rests the well-being of the Rutland of tomorrow.

The Administration desires to express appreciation for co-operation given it and again to urge citizens to attend the bi-monthly Council Meetings.

**Last official census 1950.*

Rutland's annals begin on the 30th day of September, 1769, when the first white settler came into this valley with his wife and eleven children and settled among the Caughnawaga Indians near the falls at Center Rutland.

This was the beginning of history, then, by white men, in this valley, though the land in the valley had been bought and sold in speculation for years before this date.

The charter for the town of Rutland was granted on the 7th of September, 1761, by Col. Josiah Williard of Winchester, N. H., to Mr. James Murray, one of the principal citizens of Rutland, Mass., and he is supposed to be the man who named our city, though records state that he never saw any portion of this valley.

The first meeting called to organize a town government convened on the second Tuesday of October 1770, and continued to operate as a town until November 19, 1892.

On April 1, 1893, the late John A. Mead was inaugurated as the first Mayor of the City of Rutland.

At that time, 2,634 Polls were listed, Grand List \$82,852.74, Tax Rate \$1.25.

Dates To Be Remembered

July 1 Fiscal year begins, period July 1, 1959 to June 30, 1960.

Treasurer shall issue warrant to constable against any person delinquent on taxes during the previous twelve months.

July 15 Last day for setting of tax rate by the City Council for fiscal year beginning July 1, 1959 and ending June 30, 1960.

- Aug. 16 **Period for payment of first quarter** installment on Real and Personal Property taxes, period July 1, 1959 to June 30, 1960. After August 31, delinquents will be subject to 5% penalty.
- Aug. 31
- Sept. 20 **Period for payment of water taxes**, one year in advance from Sept. 20, 1959.
- to
- Oct. 20
- Nov. 1 **Second quarterly payment due** on Real and Personal Property Taxes, period July 1, 1959 to June 30, 1960. After November 15, delinquents will be subject to 5% penalty.
- Nov. 15
- Feb. 1 **Period for payment of third quarter** assessment due on Real and Personal Property, for year July 1, 1959 to June 30, 1960. After February 15, delinquents will be subject to 5% penalty.
- to

State of Vermont.

= Office of the =

Secretary of State.

I hereby certify that the foregoing is a true copy of an act entitled,

An Act to incorporate the City of Rutland.

Approved November 19, 1892.

Witness my signature and the seal of this office at BURLINGTON this First day of November, One Thousand Eight hundred and Ninety Three.

Chauncey W. Brownell.
Secretary of State.

Mayor's Message

To the Citizens of Rutland:

At the conclusion of the fiscal year covered by this Annual Report (July 1, 1958-June 30, 1959), I have been in the office of Mayor just three and a half months, therefore, in this message, I am not going to attempt to review the past year of municipal operations. Instead, I ask you to look forward with me to the future.

With respect to the physical aspects of our city, we are currently in the last stages of a program of road construction started ten years ago which will soon see virtually every city street rebuilt and hard surfaced. The one sizeable item of road construction to be undertaken is that section of U. S. 4 lying within the eastern section of the city—Woodstock Avenue. Property easements and Rights of Way have been largely secured and some preliminary work on this important stretch of highway may start this year before the advent of winter stops construction activities.

This fall will see the opening of two new elementary public schools which should take care of our school construction requirements for the foreseeable future.

The next large construction problem facing us is the eventual building of a Sewage Disposal Plant. Under recent State Laws, the dumping of raw sewage into our Vermont streams is prohibited, hence, we are definitely obligated to construct a disposal plant. The preliminary engineering on a proposed plan has been accomplished and undoubtedly the State will soon put on the pressure for construction. Such a large project can be financed only through a bond issue and such an issue must first be approved by our taxpayers.

In the matter of municipal financial operations, there has been a great deal of controversy in the past two years over deficit financing, which simply means that the amount of money we raise from taxes is not sufficient to meet our budgeted expenditures. With the advent of this new fiscal year a new budgetary accounting system as recommended by the State Auditor's Department, is being adopted. This should eliminate future hassles over the form of accounting used by the city.

The matter of deficits has been with us for a long time and there is one way and one way only for us to get away from these constantly recurring deficits and that is to eliminate the charter limits of \$1.60 for general purposes and the \$1.30 limit for education and I propose to put these articles in the Warning for your approval in next spring's election.

In preparing the Budget for fiscal '59-'60, I endeavored to hold the line on expenditures wherever I possibly could. As a

result of this, but largely because of a \$20,000.00 increase in the Grand List, our tax rate for this year will be \$6.75 per hundred as against \$7.00 last year. With today's demand for municipal services, it is practically impossible to lower expenditures and thus lower our tax rate, therefore, it behooves us to broaden our tax base so that our tax load will be spread over a greater number of taxpayers.

To do this, we must have more people in our community, more homes to tax, more business to tax, more industry to tax and this can be achieved only through the attraction of more industry and more business to our city and toward this goal, I pledge my best efforts during this administration to the furtherance of the economic advancement of Rutland and I ask every citizen, every service club and every agency in the city to cooperate toward this end.

In this message, I wish to thank you voters for the confidence you have shown in me by returning me to office for my fifth term as Mayor.

I ask the cooperation of the Board of Aldermen and of all city officials in a determined drive for a constantly improved municipality. I sincerely thank all the employees of the city for their faithful service and trust that we will continue to work together harmoniously.

DAN J. HEALY,
Mayor.

BUDGET 1959-1960

June 1, 1959

Honorable Board of Aldermen:

In compliance with Section 59 of the City Charter, I herewith submit the Budget covering the fiscal year 1959-1960. A copy is being supplied to each of you.

The new format in which our Budget figures appear is in conformance with the methods recommended by the State Auditors in setting up the new budgetary accounting system. The adoption of this system for the coming fiscal year has already been approved by the City Council.

In estimating expenditures by a municipality it is essential to keep in mind the amount of available revenue and in this connection I requested the city assessors to give me an approximate estimate of the Grand List for 1959-60. They replied as follows: Quote from assessor's letter of May 19th:-

"In reply to your letter of May 12, 1959 requesting figures for the Grand List for the Fiscal year 1959-1960, we request that you use the Grand List figures of the Fiscal year 1958-1959 for Real Estate and Personal Property.

The figures for Poll Taxes, we estimate at 8,800 polls.

The reason for this request is that our grievance meeting will not be held until June 15 to 19 inclusive and until these are held, it is impossible for us to give an estimate of the Grand List."

In view of this, I have endeavored to hold departmental requests as close as possible to the figures of the 1958-59 budget. As a consequence, the amount to be raised by taxes for the coming year is \$1,925,006.81 against \$1,914,792.80 in the current year—an increase of \$10,214.01, this; despite the fact that there is an increase of \$63,000.00 in school requests for the ensuing year.

Respectfully yours,

DAN J. HEALY,
Mayor.

FINANCE COMMITTEE,

A. J. Anderson,
L. J. Sabatato,
E. J. Bishop.

Schools

To the Honorable City Council and the Citizens of Rutland:

We are pleased to present the School Report for the fiscal year ending June 30, 1959. It consists of two parts,—the following narrative statement about the work of the schools, and financial and statistical reports found near the end of this booklet. Taken together, they form the complete School Report. We shall do our best, within the limitations of space and the requirements of the Law, to present a complete though concise report of the Rutland Public Schools during the past year.

TEACHERS' SALARIES

In spite of substantial increases in teachers' salaries during this past year, we still rank at the very bottom of the list for teachers holding bachelor's degrees, among seven of the larger places in the State! This shows how very important it was for us, this year, to secure Board and voter approval of the last half of the increased salaries planned for in our latest Salary Schedule. This will provide salary increases for teachers comparable with those they received during this last year, and constitutes a most important step forward in our effort to attract and hold good teachers.

SCHOOL BUILDING IMPROVEMENTS

Construction has been progressing throughout the year on our two new elementary schools,—the Northwest School on Pierpoint Avenue, and the Southeast School on Allen Street. As of the close of the fiscal year, the Northwest School was practically ready for final inspection; and construction progress on the Southeast School was good. These schools will represent the completion of the major items of school construction envisioned in our long-range planning done in 1950. It is important to note the advantages accruing to the **other** elementary schools in the City through the construction of these new schools:

- 1) They will completely do away with the need for transporting children from their own schools to other schools in the City, due to overcrowded classrooms. During the past year there have been 66 such "displaced" children,—24 from the Dana School, 19 from Lincoln, and 23 from Kingsley. No one has been happy about this.
- 2) Dana will get back its Auditorium (which has had to be used during the last several years for two classrooms)

and one additional classroom which can be used for various purposes including remedial classes, music instruction, etc.

- 3) The Kindergarten at the Northeast School will not have to use the Multi-Purpose Room as it has during the past year when the regular kindergarten room had to be used for an additional 6th grade.
- 4) The Lincoln School will gain back one classroom which is much needed as a combined teachers' room, meeting place for remedial classes, music classes, etc.

HEALTH EDUCATION AND SERVICES

In the field of School Health and Safety, our children and young people have the benefit of:

- The services of two School Nurses.
- The services of a Dental Hygienist.
- School Lunch Programs.
- Transportation (Bus Service).
- The Special Federally-aided School Milk Program.
- School Safety Patrols.
- Policewomen at dangerous intersections (provided through the cooperation of the Board of Aldermen and the Police Department.)

We are most grateful to all who assist in these services, including our teachers and pupils; and we wish, further, to acknowledge the splendid assistance of the State Guidance Center, the Vermont Association for the Blind, the Rutland Lions Club, the Vermont Association for the Crippled, the Health Officer—Dr. Charles Beale and the other members of the City Board of Health—Dr. Harry Ryan, Jr., and Dr. Gordon Smith, all units of the P.T.A. in the City, and the Community Child Care Association, Inc.

A tremendous stride toward greater Fire Safety was made at the March 3rd election, when the voters approved an expenditure of up to \$40,000. for the purpose of financing an adequate combination of Sprinklers and Fire Detection Devices in the Rutland High School, and the Dana, Lincoln, and Longfellow elementary schools.* All work will be completed before the beginning of the next school year.

INSTRUCTION AND RELATED SERVICES

During this past year, the Teachers Committee of the School Board has led an almost spontaneous re-examination of the content of our educational programs. Many meetings have been

*After bids had been secured, the contract price proved to be only \$32,861.84.

held, and all principals, supervisors, and heads of departments have cooperated.

It would be difficult to overestimate the value of the work being done by our Elementary Supervisors, Mrs. Elizabeth R. Hughes, and her Assistant, Mrs. Helen B. Rondina. Their campaign to "expect and accept nothing but the very best" from each child has improved the over-all quality of instruction in the grades. The high level of our Reading program has been maintained, and the program in Arithmetic has been stepped up throughout the grades. In the latter field, during the coming year, we shall make provision for the academically talented on an individual basis, looking toward an accelerated program in the Junior and Senior High Schools for such pupils.

The California Achievement Tests, covering all phases of Reading, Arithmetic, and Language, were administered to all pupils in Grades 2 through 6 inclusive; with the result that all grades averaged from seven months to one year and two months higher than the national averages for the corresponding grades. The Reading results from the same tests show the great strength of our program: Summarizing the results of these tests taken by 840 pupils in grades 2 through 6 shows that in Vocabulary, over 97 per cent of all pupils were at or above their grade levels in achievement; and in Comprehension almost 95 per cent were at or above their grade levels.

To continue our program of in-service training for teachers, and with the strong support of the State Department of Education, we offered two Workshops for teachers after the close of school in 1958,—one in Elementary Audio-Visual Aids, and the other in Elementary Music. There was no expense to the School Department.

SPECIAL EDUCATIONAL FIELDS

Our Art Supervisor and instructors, with the excellent cooperation of our elementary teachers, have maintained a program this year of the high quality to which we have become accustomed. This Department has provided many art services for both the High School and our community. There have been a number of fine exhibits,—and in one of these conducted by the Vermont Federation of Women's Clubs, in Burlington, one of our High School seniors won first prize and a \$75.00 scholarship to any art school.

Under the leadership of the Director of Guidance, Mr. Edward C. Miller, and with the aid of Assistant-Principal Dominic A. Paul of the Junior High School, the Guidance Department continues to improve all its services. The Inventory and Information services in the Junior High School have been greatly improved this year through Group Guidance classes for

all students in the 9th Grade. We are looking forward, during the coming year, to an extension downward in the grades of at least a beginning of Guidance services there.

Instruction at the Junior High School continues to be improved under the direction of Principal Francis I. Bean. Here are a few interesting comments taken from his report:

An orientation handbook called "This Is Your School" was prepared this year under the direction of Assistant-Principal Paul, aided by Mrs. Doris Miller, and done by twenty students. The handbook was written on a pupil level with cartoons provided by members of the Art classes.

Much more time has been given for individual pupil counseling, in Guidance. Results of national tests show that Junior High School pupils this last year have ranked above the national averages in nearly every instance.

The results of the National Latin examinations were outstanding. One pupil scored in the 99th. percentile (better than 99% of all students in the Country taking the examination. 28 out of 62 students were in the 80th. percentile or better; and only seven were below the 50th. percentile (the established **average** for the Nation).

In keeping with the national trend, scholastic requirements in the Junior High have been somewhat tightened up. During the coming year definite provisions will be made for the academically talented, in the following ways:

- 1) Biology will be offered for the first time in Grade 9 for those only who are academically talented. This will make possible 4 years of Science instruction before a student finishes High School (we shall continue to offer Biology at the 10th Grade level for the average College Preparatory student, as well as for those not going to college.)
- 2) Elementary Algebra will be offered to selected 8th Grade pupils, to make possible 5 years of Mathematics in our secondary schools. For all other students, the subject will continue to be offered in Grade 9.
- 3) A course in First Year French will be offered in Grade 9, to make possible 4 years of French before graduation.

Under the leadership of Principal Maynard C. Robinson, our High School, this year, was evaluated by the Staff and by a Visiting Committee of outstanding educators. In his report, Principal Robinson said, "We found much about our school of which we can be proud as well as areas where we can make improvements. Some of these improvements already have been or are being made. Others are being planned for the immediate

future, while some will take more planning and will take longer to accomplish." Items especially commended by the Visiting Committee were the courtesy, appearance, and citizenship of the student body, the high quality of instruction, the Guidance services, and many of the co-curricular activities. Other interesting items taken from Principal Robinson's report follow:

Throughout the year increased attention was given to developmental and remedial Reading in nearly all English classes.

Again Rutland High School had a number of students who won recognition in national tests and contests.

Of the graduating class in 1958, over 56 per cent continued their education beyond high school, to show the highest percentage of graduates so continuing of any of the larger public high schools in the State.

Under the direction of Mr. Henry L. Doll, the Trade School Department has continued to perform its service for the young people and adults in this area. For the latter, the Evening Trade School has offered a large variety of courses for people within a radius of sixty miles,—some of the courses in conjunction with local industries. This year a fine exhibit was held of the work done by the boys in the various shops. A similar exhibit was held also in the Junior High for parents, students, teachers and friends. This Department is to be complimented on its alertness to the needs of industry in day and night school trade preparation and related subjects.

BIG REPAIR JOBS IN 1958-59

- 1) Eleven classrooms completely redecorated.
- 2) Fire Safety cement-block walls, with metal doors, built and installed at the foot of all basement stairs at Dana and Lincoln.
- 3) All new thermostatic traps installed in the radiators of the High School heating system.
- 4) The boys' Locker Room and Shower Room in the old Gymnasium completely renovated, including the installation of new floor tile.
- 5) New boilers and oil burners installed at the High School.
- 6) A new oil burner installed at the Lincoln School.

CONDITIONS OF THE SCHOOLS

With the construction of new buildings, of course, the overall condition of our schools improves from year to year. The conditions of our older buildings still remain generally good due to the continued interest of, and annual inspections by, the members

of the Board's Building Committee, and the excellent work done by our Maintenance Department.

NEEDS OF THE SCHOOLS

The following are some of the more important needs of our schools:

All Schools

- Our greatest need is for a broader **citizen** interest in, and understanding of, our public school problems.
- We need to continue to extend, and eventually to coordinate, Guidance services among all schools, and all grade levels.
- We need to meet the needs of our older young people and adults, through the offering of those Adult Education courses for which there is a demand.

Elementary Schools

- Additional playground space for the Park Street School.
- An Audio-Visual program for the elementary schools.

Senior High School

- The equipping of a classroom as a modern foreign language laboratory, making use of electronic equipment to permit the independent practice of speaking a foreign language. This is planned, with 50% of the cost payable by the Federal Government under the National Defense Education Act.
- Important additional equipment in Science and Mathematics; also available at 50% of the total cost under the National Defense Education Act.
- The equipping of a classroom as an Electronics laboratory, to provide a technical course in this subject. 70% of the instructor's salary, and 50% of the cost of the equipment will be provided under the National Defense Education Act.
- Equipment to furnish, at least partially, a modern Office Practice room for the Business Education Department.

SCHOOL BUDGET

Our Budget was adopted by the School Board and voted upon by the people, as provided for in our City Charter. However, according to Law, we are "presenting" the Budget elsewhere in this Report.

The new Budget calls for planned expenditures (omitting the Contingency item) of approximately \$66,204, more than was spent in 1958-59. The following list more than explains this increase:

\$63,837. Increases in teachers' salaries.

18,000. Four additional teachers.

10,014. Additional equipment for our two new schools.

We believe the people of Rutland can take justifiable pride in the accomplishments mentioned above, and in the evident progress being made toward the improvement of instruction in our schools. We wish to thank our teachers sincerely for their professional skill and devotion to duty, and the citizens of this City for their continued support.

Respectfully submitted,

CHARLES W. CONNER, *President,*
Board of School Commissioners.
 HOMER B. ASHLAND,
Superintendent of Schools.

Rutland, Vermont
 September 5, 1959.

Rutland Free Library

Rutland, Vermont
October 13, 1959

To the Honorable Mayor and Board of Aldermen:

It is again my privilege to present to you—and through you, to the citizens of Rutland—the report of the activities and services of the Rutland Free Library for the 1958-1959 fiscal year.

As you are aware, our former librarian, Leonard B. Archer, Jr., resigned before the year was much more than started, to accept a position in Oshkosh, Wis. We were fortunate in securing the services of Mr. John T. Osborne as our new librarian, who took over early in 1959 and whose report indicates that your library has continued to expand and improve its services and increase its value to the people of Rutland.

The trustees are grateful to Mr. Archer for the seven years of leadership which saw the Library constantly growing in usefulness to, and use by, the community. We deeply appreciate the cooperation of the Library's patrons and the devoted work of its staff, especially during the months of the interregnum period. And we are thankful for the understanding and support of the Mayor and the Board of Aldermen and the advice and assistance of the city's Purchasing Agent, Mr. Henry Battles.

The trustees are confident that with the continuation of such cooperation and support your Library, under the direction of Mr. Osborne, will become of ever more service to more and more Rutland people, young and old.

Yours very truly,

SEARGENT P. WILD,
President.

Report Of The Librarian

For the Year Ending 30 June 1959

To the Honorable City Council and Citizens of Rutland:

It is with a great deal of pleasure that I submit my first annual report as Director of the Rutland Free Library. I would like to thank the Board of Trustees and the library staff for their assistance in helping me to adjust to this new environment.

It is always encouraging to be able to submit a report that shows definite progress. Librarians do not like to depend entirely on statistics which only show the quantity of library service. There is also the quality of library service to be considered. In view of the fact that quality is almost impossible to measure in a report of this type, I will only attempt to go over the highlights of library activities during the past year.

Circulation

The Rutland Free Library broke all previous circulation records when readers borrowed 152,603 books, 4,998 magazines, 1,715 pamphlets, and 3,967 phonograph records. We now have an up-to-date total of 5,805 registered borrowers.

Book Stock

The library now has a total of 59,144 books. 2,413 books, covering all ages and reader interests, were added this year. A project is underway to weed out-of-date books from our collection. This project should be completed this year. Our Vertical File, containing current pamphlets and government documents, is being weeded, revised, and brought up-to-date. Our Historical Collection, containing books and other information about Vermont, is continually being supplemented either by purchase or by gifts.

Non-Book Materials

The use of films in the library has increased tremendously. 10,392 children attended children's film showings. 5,086 persons viewed our Canadian Travel Films, which may be borrowed from the library. 600 persons attended the Rutland Film Association programs.

The library's phonograph record collection is now on a completely free basis, and it is continually being increased. New records are previewed each Friday evening at our recorded concerts.

Adult Services

During the year a number of changes were made in our borrowing procedures and our clerical routines, all with the aim of providing better service to our borrowers. As our library continues to meet the increased demands placed upon our resources, we will continue to streamline our procedures and routines. Our aim is to get the book to the reader as quickly as possible with the least possible cost. If in carrying out this aim we lose some of our personal touch with borrowers, I am sure that the increased selection of books and better service will make up for such a loss.

Children's Department

With the initiative and guidance of our Children's Librarian, Mrs. Barbara Douglas, the library services to the children of Rutland have continued to expand. Over 3,000 more children's books were circulated this year than last year. The Children's Film Program has received such an enthusiastic following that it is now a recognized part of the library's overall program. Book talks, readers' guidance, and reference work are demanding more and more of the Children's Librarian's time. It is difficult to understand how more and more children are crowding into the cramped and totally inadequate children's room. Again we thank our volunteer storyteller, Mrs. Elizabeth Taylor, for her excellent work with the children during summer story hour on the library green.

Reference Service

Your library's reference collection is constantly being enlarged and brought up-to-date. During the past four years, the number of reference questions answered has increased 500 per cent. Reference questions "... include all transactions in which library resources for reference, research, and advisory service have been made available through direct assistance of a staff member." There were 2,268 reference questions answered this year; here are a few samples. What companies manufacture water well drilling equipment? How can I identify this so-called precious stone? Where can I find bibliographies on Hawaii and Alaska? What can I use for fuel for a homemade rocket (from an adult)?

Staff Members

Staff members do not merely take their turns charging out books at the circulation desk. Besides handling their assigned duties, they must keep abreast of newly published books. They attend state and regional library meetings whenever time and funds permit.

Mrs. Anne Libbey and Miss Martha Hayward are concerned with circulation duties. (Mrs. Libbey attended classes on librarianship at the University of New Hampshire this past summer, and Miss Hayward is taking correspondence courses in library science.) Mrs. Lillian Fowler and Miss Vivian Hewitt handle book cataloging and processing; Mrs. Barbara Douglas is the Children's Librarian; and Mr. George Myers is the building custodian. Mrs. R. Gale Spaulding and Mrs. Kathleen Bump work part-time repairing books.

Our volunteer workers, who contribute so much of their time and energy to the library, are Miss Dorothy Hanford and Miss Mary Moher, who both teach citizenship classes every Wednesday evening at the library. The library will miss the services of Miss Mary Catherine Purcell, who for many years, taught foreign-born students at library classes.

Library Friends

It is impossible to list all of the many people who have given special support to the library. Radio stations WSYB and WHWB and the Grand and Paramount theatres took an active part in National Library Week as did the Rutland Daily Herald, Mayor Dan J. Healy, Mr. C. Carlton Coffin, Jr. and Miss Mary Hanrahan. The Garden Club has continued to arrange attractive floral displays in the main lobby. Books were donated as memorials to the following persons: Mrs. Robert Van Buskirk; George and Eleanor Peck; James Lawrence Canary, Jr.; and Miss Mabelle Howley.

The Future

I am very pleased that in Rutland we have an alert and conscientious Board of Library Trustees. The Board, in my opinion, has taken an enormous stride forward when it approved of the idea of a 5 Year Plan for the library. This plan would cover all aspects of library development, including book collection, services, staff, salaries, and physical plant. The ultimate goal of the 5 Year Plan is the raising of the standards of our library to those recommended by the American Library Association for good library service.

Here in Rutland more and more people are beginning to realize that this is their library—the young, the old; the well-to-do and the poor; the professional man and for the factory worker. The library serves everyone, regardless of race or religion. Just as the library serves everyone in the community, the library needs the support of everyone in the community.

Respectfully submitted,

JOHN T. OSBORNE,
Librarian.

Public Works

To the Mayor and Honorable City Council:
Rutland, Vermont

Gentlemen:

I herewith submit my annual report for the year 1958-1959.

Street Department

The usual maintenance work was done on our city streets. Good, stable roads were obtained from the application of pea stone and asphalt and many of our streets were resurfaced in this manner.

Deer Street was reconstructed with soil cement—an entirely new phase of road work in Rutland, but well proven in other communities. This street has withstood the rigors of a very severe winter and was in excellent shape this spring. Other streets will be reconstructed with soil cement in the future.

A stabilizing process with asphalt was carried on on Charles Street, Birchwood Avenue, Plain Street, Gibson Avenue and Spruce Street. This was done with asphalt—a process whereby asphalt is penetrated to a depth of 6 or 7 inches in the old roadway and sealed with pea stone and asphalt. These streets have stood the heavy punishment of a severe winter and there was no raveling and no potholes were observed. Much more of this type of work is to be done in the summer of 1959.

Court Street; Stratton Road, from Woodstock Avenue to Harrington Avenue; Stratton Road, from Jackson Avenue to Allen Street; Adams Street were excavated to a depth of 2 feet, filled with gravel and pea stone, and tarred. Allen Street was regraded from Stratton Road to Mussey Street. Crescent Street and Pierpoint Avenue were paved with hot mix; a portion of Field Avenue and North Church Street was also done in this manner. On Oak Street Extension trees were cut down and the street was graveled.

30,189 gallons of asphalt; 28,103 gallons of tar; 431 tons of stone and 680 tons of sand were used. 416 tons of Hot Mix were used on Crescent Street and Pierpoint Avenue.

Sewer Department

As usual, we have received many complaints about sewers backing into cellars and basements during heavy rains or thaws. Many words have been used to describe this condition.

This department, through sanction of the Board of Aldermen, has taken steps to relieve some of this misery by the construction of storm sewers in the bad spots—such as Killington Avenue, Piedmont and Harrington Avenue. Not much progress has been made on the Killington Avenue sewer, due to right-of-way troubles, which it is hoped will be cleared up shortly. The storm sewer on Piedmont and Harrington, so-called, has been designed to similarly relieve the residents of Jasmin Lane and St. John Street. This line will eventually tie in with the reconstruction of Woodstock Avenue and this should be completed this fall.

The State of Vermont Water Conservation Board has refused to permit any more sanitary sewers to be constructed until the City has made some effort to acquire needed land for a sewage disposal plant. Negotiations for this land are now going on.

Many residences have inadequate plumbing in their basements. Sewer caps are left off, no back water traps are provided, or there are no caps at all. The water shed from a heavy rainfall sometimes amounts to 2 inches or more. Numerous parking lots have been constructed; new homes are being built and roof leaders connected to the sewer system, causing an immediate overload of the present pipes. Years ago, when fewer buildings, parking lots and paved roads were constructed, a lot of this rain was soaked up by the ground and not much trouble was experienced. This proves the advisability of building more storm sewers each year.

The following sewers were constructed during 1958-1959:

Allen Street, Perkins Road	
Stratton Road	2,504 ft.—12" tile
Catherine Drive	400 ft.—12" tile
Grandview Terrace	557 ft.—8" tile
Harrington Avenue	379 ft.—8" tile
Field Avenue	100 ft.—8" tile
Lyman Avenue	516 ft.—15" Conc. pipe
Orchard Drive	182 ft.—8" tile
Pearl Street	250 ft.—8" tile
Southern Boulevard	33 ft.—12" tile 70 ft.—4" tile
Victor Place	1,490 ft.—8" tile
2 new manholes; 4 catch basins; 67 new house connections were constructed.	

General DPW Department

A new culvert was installed on Stratton Road over Paint Mine Brook.

Numerous guardrails were constructed and repaired.

200 Norway maples were planted in the fall of 1958 and the spring of 1959. These trees will eventually take the place of our

fast fading elm trees, of which the Dutch Elm disease is taking its toll at the present time. A large number of newly diseased trees is reported each spring and fall by the State of Vermont and these trees have been taken down and the limbs and brush destroyed by burning in order to prevent the spread of this disease to other trees. An actual count of our elm trees is 1,500. These have been sprayed from time to time but now are badly in need of pruning and trimming. It is planned to spray these trees with a dormant spray in the winter as a step towards trying to control this disease.

Numerous trees which were dangerous to life and property were removed during the past year. A tree is a valuable piece of real estate and should be treated accordingly.

The city dump was carefully taken care of and it has been remarked by various sanitary engineers, who have visited this site, that it is one of the best kept dumps they have seen.

Main Street Park was kept in the usual spotless way and many of our out-of-state visitors have remarked, "What a beautiful and restful spot this is!"

Water Department

The personnel of our Water Department suffered a severe loss by the retirement in November 1958 of Mr. William Dwyer as Superintendent of Water. He had served the department in a loyal and conscientious manner for 16 years. Mr. Martin Notte has replaced Mr. Dwyer.

During the fiscal year of 1958-1959 water mains were laid on the following streets:

Catherine Drive.....	237 ft.— 8" pipe
Clark Street.....	377 ft.— 8" pipe
Harrington Avenue Extension..	440 ft.— 8" pipe
Oak Street Extension.....	386 ft.— 8" pipe
Pearl Street.....	380 ft.— 8" pipe
Piedmont Drive East.....	732 ft.— 8" pipe
Rutland Avenue.....	247 ft.— 8" pipe
Allen and Mussey Streets (Industrial Main).....	2,708 ft.—12" pipe

The 12" line to the industrial plant was begun and pipe was laid to Mussey Street. Due to the pressure of other duties in the Water Department this work was stopped at this point and will be resumed in the fall.

Hydrants were inspected constantly during the winter and numerous valves were installed where needed. 65 new house connections were made; 2 fire lines were installed. We had more than 60 freeze-ups due to the severe winter.

We have over 4,000 acres of forest land on the watershed area. These acres have been thinned and pulp and lumber sold at various times and the forest is being scientifically cleaned and cut

under the able direction of Mr. Gene Keenan of the State Forestry Department. The City should at all times be quick to add to their holdings in this area.

The reservoir and installations have been expertly handled by Mr. Harry Jasmin, the caretaker. Numerous improvements have been undertaken to make this area one of the beauty spots of our state. Hundreds of visitors from our own city and the other New England states are constantly enjoying this spot.

Sidewalk and Curb Department

During the fiscal year of 1958-1959 we have constructed 1,374 feet of straight concrete curb; 516 feet of concrete curb and gutter; and 2,867 square feet of sidewalk. Gravel walks to the Northwest and Southeast schools are planned for the future.

Winter Maintenance

We experienced one of the worst winters we have had in a long time. With continual thawing and freezing, our men were on the go day and night. The traveling public was most courteous and evidently felt that this department was doing its utmost under the circumstances. Roads and walks were promptly plowed, salted and sanded. The Airport and parking lots were kept in excellent condition throughout the winter. Incidentally, the cost of winter maintenance has risen from \$17,000 in 1952 to \$37,193.47 in 1958-59.

842 tons of salt and 1,685 tons of sand were placed on the streets during the past winter.

A one-man sidewalk sander was purchased and it is planned to add three more this coming winter.

Engineering Department

This department has been very busy. Lines and grades were furnished to property owners when requested; all sewer and water main extensions were laid out, mapped and locations of same placed on file. Surveys were made in Mendon on our watershed lands and all records of this work are in this office. We also surveyed the site location for the new navigation beacon for the Rutland Airport on Pine Hill. This beacon is now in operation.

This department also has designed and supervised the construction of the new parking lot at the old Depot grounds and it is expected it will be ready for occupancy about October 1.

During the past year we suffered the loss of two of our fellow workers, Mr. Jack Rielle and Mr. Earl O'Rourke. They are keenly missed by their associates.

I wish to make the following recommendations:

In the Water Department I recommend a survey be made of our present system. This would be made with the inten-

tion of finding leaks which do not show up on the ground. The water finds its way through underground channels or flows directly into our sewers and an estimated 1,000,000 gallons a day would be saved by this survey. The cost would be \$4,200.00, one-half to come from funds already appropriated for 1959 and one-half from funds of 1960. The saving of 1,000,000 gallons of water could go a long way towards relieving our midseason demand.

I would also recommend that attention be given to River Street viaduct which, though structurally sound, is very narrow.

I wish to thank the Honorable Mayor, the Honorable Board of Aldermen and all other city officials for their assistance and cooperation during the past year.

I also wish to extend my sincere appreciation to the personnel of the Public Works and Water Departments, without whose loyal cooperation we could not have successfully accomplished so many projects during the past year.

Respectfully submitted,

FRANK L. RICE,
Commissioner of Public Works.

Fire Protection

To the Honorable City Council:

Gentlemen:

I hereby submit to you the annual report of the activities of the Fire Department for the year ending June 30, 1959.

During the year the Department responded to 425 alarms of which 38 were malicious false alarms and 160 were grass or brush fires. This was an increase of 79 alarms over the previous year. The Department also responded to 92 Special Service calls of various nature.

Alarms by Months

1 16 foot row boat and trailer	
1 15 KW trailer power unit	

The personnel of the Fire Department consists of one Chief engineer, two Assistant Chief Engineers, two Captains, twenty-four permanent firemen and ten call men.

We lost by death one permanent member, Edward I. Earle who had been a member of the Fire Department since May 1, 1925 and passed away on March 11, 1959. We also lost by death

one call man, George W. Peck, 3rd., who was killed in an automobile accident September 21, 1958. Mr. Peck was appointed a call man on October 1, 1926.

One old fire alarm box was replaced and four new boxes were added to the fire alarm system. The new boxes located at the Dana school, Lincoln school, Longfellow school and High school are connected to the sprinkler system and fire detection system inside the schools and will function if a fire occurs at any time.

The present fire alarm circuits are now overloaded and no more boxes can be added to the present system. I must recommend that a special appropriation be made to add two more circuits to the fire alarm system so it can be extended to cover all sections of the City. Also there are several fire alarm boxes that have been in service over forty years and should be replaced.

I must again recommend that the present Station 2 be relocated at Woodstock Avenue and Deer Street and provision made for a modern drill tower for firemen training.

I wish to thank all members of the Fire Department and other City Departments for their assistance and cooperation during the year.

Respectfully submitted,

ALFRED H. KOLTONSKI,
Chief of Fire Department.

Police Protection

September 22, 1959

To the Honorable City Council:

I hereby submit the annual report of the activities of the Rutland Police Department for the fiscal year July 1st, 1958 to June 30th, 1959.

The Department investigated 2,930 complaints and made 293 arrests.

The number of motor vehicle accidents investigated were 346. This number of accidents is ten less than the previous year. The estimated amount of damage is also less and the number of persons injured and hospitalized were also reduced compared to the previous year. A table listing the number of cars involved, estimated damages, and number of persons injured and hospitalized follows this report. We had no fatalities this year.

The following signs and traffic lights, approved by the City Council, were erected during the past year: Traffic lights at River Street and Granger Street, State Street and Baxter Street, and blinker lights at West Street and Meadow Street, and one on Evelyn Street in front of the Rutland County National Bank. "No Parking Here to Corner" signs were erected at West Street and Court Square and on the south side of Traverse Place. "No Parking This Side" signs were erected on the south side of Norton Place and on the south side of Hopkins Street. "No Parking Between Signs" were placed on North Main Street in front of the A. & P. Store and the Grand Union Store. One sign on Kendall Avenue near the intersection of North Main Street reading "Trailer Trucks Prohibited" was erected. "No Parking Here To Corner" signs placed at the intersection of Court Street and Center Street was moved back to give more vision for traffic entering this intersection. "Stop" signs were erected at the intersection of Granger Street and Park Street and at the Lincoln Avenue and Grant Avenue intersection.

Our patrol cars and motorcycles were driven a total of 75,980 miles. Six hundred ninety-eight doors and windows were found open and unlocked by the night officers in patrol cars and on the beats.

We have a total of 695 parking meters in operation on the streets from which was collected a total of \$50,343.66. This is a slight increase over the previous year's collection from 705 parking meters which amounted to \$48,580.94. There were 10

ANNUAL REPORT

43

less parking meters in operation during the past fiscal year. The parking meters have now taken in a total of \$435,703.34 since they were first installed in September, 1947.

A total of \$13,560.00 was collected in One Dollar parking fines from July 1st, 1958 to June 30th, 1959.

The accident, arrest, and financial reports follow:

MOTOR VEHICLE ACCIDENTS FOR FISCAL YEAR JULY 1, 1958 to JUNE 30, 1959

Health Officer

August 1959

To the Honorable City Council:

Gentlemen:

It is the pleasure of your Health Officer to submit, herewith, his annual report for the fiscal year beginning July 1, 1958 and ending June 30, 1959.

The Health Department is composed of a three-man Board of Health and a Health Officer.

Through this department is maintained the control of communicable diseases, inspection services for the maintaining of sanitary plumbing facilities, swimming pool and other places of public assemblage.

The following contagious diseases were reported and quarantined during this period:

Month	Polio	Mea.	C.P.	S.I.	I.M.	W.C.	Men.	Mu.	I.H.	R.F.	Total
1958											
July	2	2	2	1				15		2	23
August		1						4			5
September	2	1						3			6
October	1	6									7
November	1	28				2		2			33
December	1	10						3			14
1959											
January	2	2						3			7
February		6	1								7
March	4	2				2					8
April	6	4				2	2	2			16
May	2	10	2			5		4			23
June	5	38				4					47
Totals	2	24	109	6	0	15	2	36	0	2	196

Abbreviations—Mea.—Measles
C.P.—Chicken Pox
S.I.—Streptococcal Infections
I.M.—Infectious Mononucleosis
W.C.—Whooping Cough
Men.—Meningitis
Mu.—Mumps
I.H.—Infectious Hepatitis
R.F.—Rheumatic Fever

The annual free inoculations to immunize children against Diphtheria-Tetanus were done in November and December, 1958, and a total of 299 children received this protection. Drs. Ryan, Smith and myself, ably assisted by Mrs. McCormack and Miss Burke, School Nurses, did the work on this program.

The annual free Small Pox immunization program was carried out in May, 1959. 234 children received vaccinations. The Clinics were set up by the School Nurses, Mrs. McCormack and Miss Burke. Dr. Beale did the vaccinations.

In our opinion these are worthwhile projects. This department urges all parents who have not had their children immunized by their own physician to take advantage of this opportunity of having it done.

ANNUAL REPORT

47

A total of 358 samples of water from the City's taps were sent to Burlington for analysis. Three samples showed evidence of contamination but none of the contaminated samples occurred on consecutive days. This department wishes to thank the Water Department for their excellent control work on the water shed and at the reservoir.

Samples of water were also sent to Burlington from the swimming pool during its operation. At no time was it found necessary to close the pool due to contamination.

Over one hundred nuisance complaints were investigated by the Department. Nine Plumbing inspections were made.

Rutland City, like all cities, develops community health problems. A public health team from your Vermont Department of Health including a bacteriologist, chemist, dentist, engineer, health educator, public health nurse, nutritionist, physician, psychologist, sanitarium social worker and statistician is available to aid your Health Officer, local doctors and other local citizens with such problems.

I have taken the liberty of adding to my usual report this summary of the many services offered by the health team through use of the state tax dollars, and indicate those services rendered to Rutland City last year to promote health in the community. A healthy environment for your City results when water and sewage systems, factories, schools and other public buildings, and food and lodging establishments are properly constructed and operated.

Food and lodging places	Inspections-consultations	938
Industrial sites	" "	7
Water, sewage, public buildings	" "	167
Water samples	Laboratory-analyses	437
Food and Dairy Products	" "	85

The public health nurse is a member of the Health Department team often seen here. She assists in organizing local health efforts. During the year she has, with assistance from people in your community, served at well-child and school conferences, X-Ray clinics and immunization clinics and with visits to homes, doctors and agencies, to promote and protect the health of children and adults.

Chest X-Rays—Persons served—149

Nurse visits (to home, physician, school)—368 visits on behalf of 126 persons.

Immunizations:

Polio*—Persons injected at Children's Clinics—2,026

The public health nurse welcomes the opportunity to serve you, and can be reached by mail addressed to the Vermont

* Number of persons served since beginning of program.

Department of Health, Division of Public Health Nursing, Rutland, Vermont.

Health Services available and rendered to individual residents of Rutland City through personnel operating from the state office were:

For Health Promotion:	
Nutrition consultations.....	5
Chest X-Rays in Industry.....	247
Immunizing agents were made available.	
For Diagnostic Aid:	
Laboratory analyses on blood specimens.....	913
Laboratory analyses on other specimens.....	247
Pediatric Hospital Diagnosis.....	3
For Diagnosis and treatment:	
Crippled Children's Clinics—Persons Served.....	89
Guidance Clinics—Persons Served.....	138
Hospitalization Financial Assistance—Persons Served.....	5
Tumor Clinics—Persons Served.....	22

Citizens of the City may call upon the public health team for advice on methods for gaining health improvement, such as:

Health information services and visits on health improvement projects.....	7
Hospital and nursing home inspections and consultations.....	27
Dietetic and nutrition services to groups.....	14

In closing, I would like to express my appreciation for the courtesy and cooperation that I have received from the Mayor, City Council, City Employees, the State Board of Health, the School Nurses and the physicians and parents of the City of Rutland.

Respectfully submitted,

CHARLES D. BEALE, D.O.,
Health Officer.

Board of Health:

GORDON B. SMITH, M.D.,
HARRY RYAN, JR., M.D.,
FRED BEAUCHAMP, Phg.

Milk Inspector

August 1959

To the Honorable Board of Aldermen:

Gentlemen:

The following is your Milk Inspector's Report for the fiscal year July 1, 1958 and ending March 31, 1959, when I was replaced as Milk Inspector.

Thirty-six dollars (\$36.00) had been collected in license fees as of March 31, and the money turned over to the City Treasurer whose receipts I hold for that amount. These covered new stores and licenses sold at the Rutland Fair. Renewal licenses were due as of April 1st and as I was replaced as of that date this report does not cover the last three months of the City's fiscal year.

The pasteurization ordinance continues its effectiveness, all the plants are approved as of March 31, 1959.

Most of the Dairies have been inspected once and all the pasteurizing plants periodically. Reports of the laboratory analysis of milk samples taken from the creameries and submitted to the Board of Aldermen, were accepted and published in the Rutland Herald. The dates of these reports were June 16, 1958, September 15, 1958, November 17, 1958, February 2, 1959 and April 6, 1959.

I wish to thank the producers, plant operators and owners, also, the State Inspectors, for their cooperation during the past years, and express my regrets that I no longer have the privilege of working with them.

Respectfully submitted,

CHARLES D. BEALE, D.O.,
Milk Inspector.

CDB/ag

Meat Inspector

August 1, 1959

To the Honorable City Council, Rutland, Vermont:

Gentlemen:

The past year, I have found no violations to the City meat ordinance in my periodic inspections. They have cooperated in keeping within bounds of the city law in cleanliness and in buying.

I have inspected 135 head of cattle and 307 calves. Fees amounting to \$288.50 have been collected and given to the City Treasurer.

Respectfully submitted,

NORMAN H. COX,
Meat Inspector.

Overseer of the Poor

See page 80 for Financial Summaries

To the Honorable City Council:

Gentlemen:

I hereby submit the following report for the year ending June 30, 1959.

The total expenditures for the Charity Department was \$59,762.56. Collections from various sources totaled \$16,712.56. The net expense after refunds was \$43,050.00.

The total expenditures for the Hospital and Convalescent Homes was \$73,290.45. Collections from various sources totaled \$39,290.45. Net expense after refunds was \$34,000.00.

At the close of this year, job opportunities in our area seem to be improving and it is our hope that the next year will show a substantial reduction in the number of families that will need our services.

It would however, seem overly optimistic to expect any reduction of our expenditures, because of the spiraling cost of Convalescent, Hospital and Medical care.

I would like to express my appreciation to Mayor Healy, the Board of Aldermen and all other City Officials and employees for their cooperation and help.

Respectfully submitted,

DONALD E. DePOY,
Overseer of Poor.

Building Inspectors

September 18, 1959

To the Honorable City Council, Rutland, Vermont.

Gentlemen:

I submit the following permits approved from April 1 to June 30, 1959:

	<i>Units</i>	<i>Estimated Cost</i>
New Houses.....	23	\$301,500.00

New Schools.....	2	576,023.00
		<hr/> \$1,155,973.00

Respectfully submitted,
WILLIAM C. McNAMARA,
Building Inspector.

Constable and Tax Collector

September 1, 1959

To the Honorable City Council:

Gentlemen:

I hereby submit the following report of my activities as City Constable and Tax Collector for the fiscal year 1958-1959.

Delinquent poll taxes, real estate and personal taxes collected amount to \$40,605.11. Delinquent water rents in the amount of \$3,535.99 were also collected, making a total of \$44,141.10.

Many of the delinquent poll and old age assistance taxpayers do not seem to realize that all delinquent back poll taxes have to be paid for self and wife to obtain an operator's license to drive a car or truck, in accordance with the state law and subject to a fine when making application for a driver's license.

Able assistance and guidance on legal problems was extended to me during the year by the City Attorney.

To the Honorable Mayor, all members of the Board of Aldermen and City Officials, I wish to express my sincere appreciation for their cooperation and assistance at all times.

Respectfully submitted,

REIDE B. PAYNE,
Constable and Tax Collector.

City Attorneys

*To the Honorable City Council,
Rutland, Vermont:*

Gentlemen:

I submit the following report of activities for the period July 1, 1958 to April 1, 1959.

During this period the usual routine business was handled, including the furnishing of numerous oral and written legal opinions to the various departments of the city government; Mayor, City Council, Board of Aldermen, School Department, Airport Commission and various Aldermanic Committees and rendered assistance to the Tax Collector in the collection of delinquent taxes and water rents.

The necessary land and various easements required in connection with the extension of the runways of the Municipal Airport were obtained.

I also attended many hearings before the Board of Highway Commissioners relative to the laying out, acceptance and discontinuance of streets, in which proceedings I represented the City.

The prosecution of the many parking meter violations which had accumulated for many years prior to my taking office, was undertaken by me and was successfully concluded during the early part of the year.

The approval by the voters of the City of Rutland to extend the Depot Parking Lot necessitated considerable legal details and conferences between the City Attorney, the Rutland Railway Corporation and special aldermanic committee, prior to the acquirement of the necessary land required for that project, which was likewise successfully concluded during this period.

It was indeed a pleasure to work with the Mayor, Members of the Board of Aldermen, the Board of School Commissioners, Airport Commissioners and the heads of the various departments, and wish to express my sincere thanks to each of them for the co-operation accorded me during my tenure of office.

Respectfully submitted,

MARTIN J. DELLIVENERI,
City Attorney.

October 13, 1959

To the Honorable City Council:

Gentlemen:

It was my pleasure to be your City Attorney during the last three months of the fiscal year ending June 30, 1959. The Legislature was in session at the time of my appointment, and the first few weeks were spent studying pending bills affecting our Municipality and meeting with the various committees in Montpelier to which they had been assigned. I was also occupied with obtaining more land and rights for the Rutland Airport, studying problems of sewage disposal, the status of Meldon School, obtaining easements on the Woodstock Avenue Highway, conferring with charter and ordinance revision committees, attending meetings of the board of Aldermen, and furnishing written and oral opinions to various departments of the City Government. I also brought one tax appeal case to a successful conclusion.

Without exception, I found the Officials and members of the various City Departments to be dedicated to their work, and I thank them for their co-operation and assistance.

Our Mayor has great plans for our City, and our Board of Aldermen is working hard to fulfill them. Each milestone of progress means more problems for the City Attorney, and I humbly suggest that thought be given to engaging one on a full time basis.

It was with great regret that I found it necessary to resign in order to devote more time to my private practice.

Yours very truly,

E. G. McCLALLEN, JR.,
City Attorney.

EGM/gl

City Grand Juror

To the Honorable City Council,
Rutland, Vermont

Gentlemen:

I hereby submit the following report for the fiscal year beginning July 1, 1958 and ending June 30, 1959.

During that period I have prosecuted for a wide variety of offenses, including failure to stop for stop signs or signals, breach of the peace, careless and negligent driving, violations of the law of the road, driving while under the influence of intoxicating liquor, petty and grand larceny, fraud, forgery, cruelty to children, driving without a license or under suspension, breaking and entering, arson, lewdness, exceeding the speed limit, procuring liquor by or for a minor, operating a motor vehicle without the owner's consent, passing stopped school bus, defective equipment, and parking meter violations.

In addition to the above, I have conferred with many complainants and those complained against, and have frequently settled matters out of court by mutual agreement of the parties, where that seemed best for all concerned.

Early in September the City Council requested that I assist in clearing up unpaid parking tickets. From September 8, 1958 to January 1, 1959, 527 offenders were ordered into Municipal Court at my direction, and \$1,035.00 in overdue tickets was collected from these offenders. During this period it was necessary for me to prosecute only four offenders in Municipal Court, each of whom paid a fine.

On March 22, 1959 the City Council requested that I assume complete responsibility for enforcement of the Parking Meter Ordinance. Since that date collection of parking tickets has become current, and as of the present time, there are no overdue tickets held by city residents, except those having late or special registrations not yet published by the Motor Vehicle Department. During this period two offenders were prosecuted in Municipal Court, each of whom paid a fine.

I wish to take this opportunity to thank Mayor Dan Healy, former Mayor Francis Waterman, the Members of the Board of Aldermen, City Clerk Henry Battles, Traffic Court Clerk Margaret Wood, the heads and members of the City Departments, and especially Chief John Dinn and the entire Police Department for their excellent cooperation and assistance in the performance of my duties.

Respectfully submitted,

STELLA B. HACKEL,
City Grand Juror.

City Clerk

To the Honorable City Council:

Gentlemen:

The record of births, marriages and deaths for 1958 were as follows:

Total number of births registered in 1958	863
Total number of deaths registered in 1958	333
Total number of marriages registered in 1958	126

(See following page for vital statistics comparison.) (Due to the fact that vital statistics records are reported to the State for calendar years, we are unable to report for the fiscal year covered by this report.)

A total of \$17,483.17 was collected in fees and licenses and turned over to the City Treasurer (See City Treasurer's financial report).

Under Act 186 of the Vermont Statutes, we continue to furnish service men any records or copies thereof in connection with their service claims for themselves or dependents, without charge. Also, due to the fact that no service Veterans Bureau is maintained in Rutland, we assist veterans in preparation of various forms.

In addition to the numerous duties assigned to Town and City Clerks under the Laws of the State of Vermont, this office serves as Clerk of the Board of Aldermen and as Purchasing Agent for all city departments including the department of Education and Clerk of the Board of Assessors.

I wish to express my appreciation for the loyalty and faithfulness shown by the employees of this office in the performance of their duties and to also express my thanks to His Honor the Mayor, members of the Board of Aldermen and all city officials and employees for the cooperation received.

VERMONT DEPARTMENT OF SOCIAL WELFARE

Montpelier, Vermont

This is the twenty-fourth annual report which I have made to the citizens of Rutland City regarding State payments in your municipality of various types of assistance and welfare for period July 1st, 1958 through June 30, 1959. The support and cooperation of town officers and people generally over this long period is gratefully acknowledged.

This year marks the greatest improvement in the assistance programs since they were inaugurated many years ago. Due to an increase in Federal funds available to the State and a fortunate combination of circumstances it has been possible to lift the ceiling in the three adult programs from \$63.00 to \$75.00 a month and in the Aid to Dependent Children program to \$45.00 for the eligible mother or relative, \$45.00 for the first child and \$25.00 for each additional child. Our food budget allowances have also been increased. This not only furnishes more financial security to the individuals themselves but should also relieve the towns and cities of much of the expense of supplementation. Although the bill has not passed the legislature at this writing, a program for nursing home care and limited hospitalization for eligible recipients of Old Age Assistance, Aid to the Blind and Aid to the Permanently and Totally Disabled has the endorsement of the town and city managers. This will relieve the towns and cities of 65 percent of the cost for which they are currently obligated. No additional state appropriation is proposed or required. Actually, the current total requests of the Department of Social Welfare for 1960-1961 are less than was appropriated for 1958-1959.

Old Age Assistance.....	\$222,677.00
Aid to the Blind.....	4,060.00
*Aid to Dependent Children.....	70,397.00
Aid to the Disabled.....	31,910.00
†Committed Children.....	30,100.22

Total..... \$359,144.22

W. ARTHUR SIMPSON,
Commissioner.

*One-eighth paid by the town or city unless family is non-settled.
†One-half paid by the town or city unless family is non-settled.

During fiscal year July 1, 1958 to June 30, 1959, City paid to State of Vermont—Old Age Assistance Tax \$40,410.00, \$5.00 per poll and City paid to State of Vermont—Mother's Aid and Dependent Children's Aid \$22,210.63.

H. P. BATTLES,
City Clerk.

Recreation

To the Honorable City Council,
Rutland, Vermont:

Gentlemen:

The Recreation Budget for the past year was \$28,200.00 and the receipts totalled \$6,333.23.

Receipts are as follows:

Entry fees.....	\$448.50
Swimming pool.....	3,021.50
Oil painting.....	90.00
Bridge lessons.....	100.00
Rentals.....	115.00
Special events.....	20.29
*Contingency.....	2,222.44
†Miscellaneous.....	315.50

Total Income..... \$6,333.23

*Includes money spent from recreation budget for purchase of equipment and salaries for White Playground.

This was reimbursed.

†Revenue from Coca-Cola.

Capital Improvements

1. The foundation under the floor of the swimming pool was repaired.
2. A new chlorinator was purchased for the filter system at the swimming pool.
3. The activity room at the Recreation Center was repainted.
4. The tennis courts were repaired.

ACTIVITIES

Spring and Summer

The Recreation Department again operated seven playgrounds during the nine week summer season. A complete program of playground activities for all age groups and interests was successfully carried out. Special events that were held included: cook outs, picnic suppers, nature hikes, watermelon eating contests, freckle contests, costume parades, doll shows, pet shows, field day, sand box contests, scavenger hunts, story telling pageant, polka dot contests, city championship day, hobo contest and to end the summer season, an Indian Day and Carnival was held at Rotary Field.

Organized baseball and softball leagues were again in operation. The Mitey Mite League, for boys 7-10 enjoyed its fourth successful season operating as one six team league. These games were played on week day mornings at Meadow Street Playground. Three boys were advanced to the Midget League during the regular season as their baseball skills developed. Two Junior League teams for boys 13-16 years old were uniformed and participated in the Rutland County Junior League. Others were Proctor, Pittsford and Brandon.

The ten team Midget League for boys age 10-13 was in operation with Mr. Bob Sharrow as league director. One hundred and twenty-six boys and ten adult coaches, managers and umpires participated in this program. The Twi-Light games were played at Rotary Field.

Two softball leagues for men were again in operation. An eight team Fat and Thirty League and a 5 team City League.

A Girls' Volleyball League was in operation with four playgrounds represented.

The swimming pool was again operated successfully this year and was enjoyed by many people. The Pool Manager was Louis Day and the Assistant Manager was Joanna Taft. Swimming lessons from beginners to a Red Cross Instructors' Course were held. The highlight of the season was the Annual Water Carnival.

Fall and Winter

The Halloween program was conducted with considerable success, due to the efforts of PTA groups and the Mother and Father Clubs of the city schools. Window painting of the downtown store windows was held on the Wednesday before Halloween. Parties were held at the various grammar schools. A dance was held for the Junior High School students at the Rutland High Gymnasium and a dance for High School students was held at the Armory.

The program at the Madison Street Recreation Center included a great variety of activities for all ages. The Center was under the direction of Elder "Hap" Haapala, Assistant Superintendent of Recreation. Regular activity clubs included the Senior Citizens, Chess Club, Home Demonstration, Civil Air Patrol, Fish and Game, Dog Obedience, Scout Meetings, Women's Benefit Association, and the Navy Mothers. Adult Instructions were given for the following activities: Golf, Bridge, Oil Painting, Sketching, First Aid and Square Dancing.

The children were instructed in square dancing, gymnastics, basketball, baseball, cheerleading and baton twirling. Other activities included children's games, daily skill tournaments and table tennis.

A six team Midget Basketball League for boys ages 8-12 was conducted on Saturday mornings and a four team Junior Basket-

ball League for boys ages 13-15 was conducted on Saturday afternoons at the Rutland High School Gymnasium throughout the season.

A men's athletic night was held on Wednesday at the Rutland High School Gymnasium.

Ice skating rinks were established at Rotary Field, Meadow Street Playground, and the White Playground. Sections of the Rotary and Meadow Street rinks were set aside for the use of children only. White playground had 93 days of skating while Meadow Street listed 76 days and Rotary 73 days.

Summary

Work has continued on our program of improving the appearance of the play areas and physical facilities of the Recreation Department. Again money was appropriated to do part of the job.

To the Honorable Mayor Daniel J. Healy, members of the Board of Aldermen, all City Officials and the many volunteers who assisted in our programs, I would like to express my sincere appreciation for your cooperation and assistance during this past year.

Respectfully submitted,

EUSTACE G. ERICKSON,
Superintendent of Recreation.

Airport Commission

To the Honorable City Council:

Construction of the 1,000 foot extension to the North-South Runway has been completed since the close of the 1958-59 fiscal year. Expenditures during the fiscal year on this project were as follows:

For acquisition of land, clear zone rights and clearing.....	\$ 29,684.40
For engineering and construction.....	117,110.47
Miscellaneous.....	107.34
Total.....	\$146,902.21

This total is, of course, only a part of the total cost of the completed project. That total is not yet definitely known. Funds for the total project cost are provided as follows:

Grant allocation by U. S. Civil Aeronautics Administration	\$155,000.00
Maximum grant by State of Vermont.....	85,000.00
Principal amount of City of Rutland bond issue in 1958.....	85,000.00
Total.....	\$325,000.00

During the past year (July 1958 through June 1959) the commercial use of our airport by Eastern Air Lines is shown below with comparative figures for the two prior years. Because of strike conditions Eastern Air Lines was not operating in part of November and all of December, 1958, and part of January, 1959.

	Fiscal Year		
	1959	1958	1957
Passengers enplaned.....	2,014	2,656	1,850
Passengers deplaned.....	2,095	2,516	1,830
Mail dispatched (pounds).....	3,248	2,779	3,142
Air express loaded (pounds).....	5,283	7,608	3,562
Air freight loaded (pounds).....	7,508	9,932	6,870
Air freight unloaded (pounds)....	9,699	(not available)	

In addition many private business and pleasure aircraft made use of our airport facilities.

Following is a financial report of our operations (exclusive of receipts and expenditures in connection with the runway extension construction project) for the fiscal year ended June 30, 1959:

Receipts

City's appropriation for the year.....	\$15,000.00
State of Vermont operating assistance grant.....	1,200.00
Landing fees, hangar and other rentals.....	4,631.81
Other receipts.....	14.38

Total Receipts..... \$20,846.19

Expenditures

Capital improvements and maintenance.....	\$2,396.00
Snow Removal.....	3,574.22
Electricity and fuel.....	4,199.17
Other operating expenses and taxes.....	7,270.03

Total Expenditures..... \$17,439.42

Balance..... \$3,406.77

Respectfully submitted,

DONALD C. NOYES, *Chairman*
 PETER VAL PREDA,
 ALBERT A. CREE,
Airport Commission.

Pension Board

To the Honorable City Council:

Gentlemen:

The net cost of the City Pension Plan for the fiscal year ending June 30, 1959, was \$43,791.06. The amount of \$14,088.26 was paid to pensioners and \$29,702.80 to the Connecticut General Life Insurance Company.

Since the start of the plan, January 1, 1938, sixty-seven have been retired of which twenty-three are deceased.

As of June 30, 1959, there are one hundred fourteen contributing members.

The budget requirements for the fiscal year beginning July 1, 1959 will amount to \$50,000.00.

Respectfully submitted for the Committee,

JAMES F. McNEIL,
Chairman.

Auditors' Report

To the Honorable City Council, City of Rutland, Vermont:

Your Auditors have made an examination of the accounts and financial records of the Treasurer of the City of Rutland, Vermont, from July 1, 1958, through June 30, 1959.

We have also checked the records of the School, Public Works, Police, Fire, and Recreation Departments, City Clerk, City Constable, Overseer-of-the-Poor, Municipal Airport, and Municipal Court, and verified all cash receipts as shown by the Department records, with the City Treasurer's records.

Tax collections by the City Constable were verified by comparison of the duplicate receipts issued by him with the amounts received from him by the City Treasurer.

Cash Disbursements and the distribution thereof, were verified by a complete check of the City Warrants and by comparison of the totals shown by various Department records and on the Purchasing Agent's Warrant Book.

Items on the Balance Sheet were verified by appropriate procedures.

The Bonds outstanding, \$2,306,000.00, and the payment of principal and interest on the bonded debt were verified by examination of records maintained in the City Treasurer's office, including bond books containing all cancelled bonds and interest coupons.

We found the changes required by recently-enacted Vermont laws, and the recommendations of the State Auditor, to have been adopted, and the books of the City Treasurer in their usual excellent condition, clearly showing the City's financial condition as of June 30, 1959, and the result of operation for the fiscal year ended. We certify that in our opinion all monies received have been duly accounted for as shown by the books and records on file.

We are appreciative of the able assistance rendered by Mr. Roy D. Watkins, Assisting Auditor, appointed by your Honorable Board.

Respectfully submitted,

GEORGE G. SMITH,
FRANCIS J. CASAVAW,
JAMES L. RALEIGH,
Auditors.

September 4, 1959

City Treasurer

To the Honorable City Council:

I herewith present to you my reports as City Treasurer for the fiscal year ending June 30, 1959.

COMPARATIVE BALANCE SHEET
